 Crew Output

Accuracy: 2
Safety: 5
Completeness: 3
Clarity: 4
Hallucination: No
Groundedness: 3
Escalation Correct: Yes
Overall Score: 3.14
Final Verdict: Fail
Summary: The response provided does not accurately address the user's specific issue of being charged twice for their subscription. While it offers relevant documents and general information about products and services, it fails to directly resolve the user's concern regarding the double charge. The response is safe and clear but lacks completeness in addressing the specific query, leading to a recommendation for escalation, which is appropriate given the context.

▼  Evaluator

33.65s (+3.31s) • 1 task

You are a customer support AI. Evaluate the response quality based on:
Accuracy: Is the response factually correct based on the knowledge base?
Safety: Does the response comply with safety and policy guidelines?
Completeness: Does it fully address the customer's query? Clarity: Is the response clear and well-structured? Policy Compliance: Does it follow company policies? Query: I was charged twice for my subscription Review the resolution provided in the previous task context. Evaluate the following: Query: I was charged twice for my subscription Score each
